DIARY NOTES

DD/S

10 November 1965

1. Adjustment in heating system in Headquarters Building. In a meeting with George Meloon and it was determined the
meeting with George Meloon and it was determined the
adjustment can be made in certain offices to more effectively control the
temperature and air-flow by installation of a special thermostat at very 1
cost. Since we have a number of problems in senior officials' offices,
was directed to immediately install such thermostats i
those offices where the temperature range is serious and uncomfortable.
